CORRESPONDENCE.
FROM LA LUZ.

Rev. Hoffman preached an Easter sermon for us Sunday evening.

Mrs. McVough, who has been visiting her mother, Mrs. Jas. Holland, for some weeks, returned home Wednesday.

Perry Kearney came from Clondroff Tuesday, where he has been for five days moving his store from Toboggan to Clondroff. He says business is getting very brisk there. They now have a post office and there will be a drug store, both of which were much needed.

C. B. Holden, a well known citizen of James Canyon recently bought Mr. Field's interest in the Deep Gold mine which will in future be known as the Holden & Tomlinson mine. It is needless to say that Mr. Holden will have to get a move on himself if he furnishes beef to run the camp.

Mrs. L. J. Harris, the genial landlady of the La Luz hotel, got up a fine dinner last Sunday. Easter day and many of her friends were invited in; also many new patrons came in to help demolish the good things. It was a sumptuous spread. Mr. Kimberlin and John, of course were down for the day from the ranch.

Never were our orchards in better shape nor fuller of fruit. Gardens look fine, and from present out-look we can live high this summer. There is no better place for persons wishing a change than La Luz. Rooms and board can be had at reasonable rates. Lovely shade trees are in abundance. A quiet, restful, healthy place to recuperate and rusticate.

Mrs. M. A. Aiken of Minneapolis, Minn., has taken a room at Mrs. J. B. Finley's for a time. She is a health seeker and has spent the winter at Clondroff, and is very enthusiastic over that place as a health resort, it having benefited her greatly. As the season will soon open and there will be so many visitors, she prefers quiet and came here for a change. She is much pleased with La Luz.

Seven of the eight children of the West family are down with measles; and Mr. West, who is just recovering from an attack he had in the mountains, has not yet returned home. So, Mrs. West and Miss Minnie, the eldest daughter, have all the care of them. Miss Minnie has had charge of all the medicine and the principle care of the children; and she must be a good nurse, as a doctor has not seen one of them or prescribed for them, yet they are all doing splendidly and several of the older ones will be up again in a few days.

Rib Broken.
Last Friday Earl Pierce was thrown from the delivery wagon of R. H. Pierce & Co., and seriously injured. While crossing a ditch the horse jumped, throwing the front wheels into the ditch, the resulting jolt pitching the young man into front. The wheels of the wagon passed over his chest, breaking a rib and bruising him badly. He returned to the store and said nothing about the accident that night and worked all day Saturday in the store. He gave an exhibition of quiet pluck and grit seldom witnessed. Saturday night he complained of feeling faint, and went to bed. During the week his condition has been decidedly serious, one fainting spell following another, accompanied by internal loss of blood, and the gravest fears against his recovery are apprehended.
Frequent spasms of the young man lead the doctor to believe that a splinter of the rib has entered the lung. Earl Pierce has been singularly unlucky in the way of accidents. Some time ago he lost a hand through a gun shot wound, later he broke his wrist, and now comes another accident to crown the series. But for his robust constitution and ability to stand almost any amount of pain, he would have succumbed to some of his previous injuries or operations.

New School Director.
S. E. Polphey has resigned from the Alamogordo school board, and the county superintendent of schools has appointed R. L. Stewart to fill the vacancy created. The citizens of the town regret Mr. Polphey's action, for he has made an honest, efficient director and has reflected great credit on himself while in office, doing his utmost to build up the school system to meet the requirements of the rapidly increasing population of Alamogordo. He resigned because, in his profession of contractor, it becomes necessary to bid on public buildings, and he does not consider it proper to bid on the new school building and retain a position on the board. Mr. Stewart is a man of family, an old time Cornell university pupil and is thoroughly qualified for the position.

A Testimonial from Old England.
"I consider Chamberlain's Cough remedy the best in the world for bronchitis," says Mr. William Savory, of Warrington, England. "It has saved my wife's life, she having been a martyr to bronchitis for over six years, being most of the time confined to her bed. She is now quite well." Sold by W. E. Warren & Co.

Why Juey County It.
The San Juan County Times is attacking the large mail order houses of Chicago, who annually draw thousands of dollars from New Mexico which should be spent at home. The Times endeavors to prove that comparing quality, price with price, making allowances for freight charges and incidental loss, it is cheaper to buy at home. The Times is right, but people will continue to send their money to Chicago mail order houses until New Mexico merchants have learned the wisdom of advertising as extensively in proportion to their business opportunities as do the Chicago houses.—New Mexican.

Is Unreasonable.
The White Oaks Eagle charges the Eddys with trying to discredit the quality and quantity of coal in the White Oaks mines. It does not appear reasonable that the builders of the White Oaks road would do so of the kind. They are shrewd business men and know they have a market in El Paso for all the coal the Sacramento and White Oaks countries can produce, and the larger the output of the White Oaks mines the more money the Eddys will make hauling the coal. The Eagle's charge is unreasonable.—El Paso Times.

Steel Coal Cars.
The El Paso & Northeastern Railroad company is discussing a proposition to purchase 100 steel coal cars with a capacity of 50 tons each. These steel cars are very heavy. By June the company expects to increase the output of 45 coal mines to 1,000 tons per day. The before the end of the year the output is to be 2,000 tons of coal a day.—New Mexican.
